

Day 8 Feb. 23

Building a better Asia future  
leaders retreat 2008

The memorial beach – Bakar beach. The last shot for the beach

## The last wonderful memorial Goa retreat day!

Finally! the last day came to us, after spend 7 days together. This day is important day for all of us, first- regarding to the Goa governor came to give great address and gave certificate for all participants. Second, our aim came out and spoke to governor by our representative-Kyi Kyi. Third, all activities we did that spread and explain our all activities workshop in display space that show Goa retreat's Common Good at the display space, and finally, it was the last memorial day our successfully work here.

Remember!! The governor's address conclusion that ....Being the largest continent in the world, a peaceful and progressive Asia is the key to progress and prosperity of not only this continent but also of other continents. We have many

things in common and a shared future for the common good of all should be our objective. We cannot let political, social or cultural tensions dilute or destroy our common bonds. Globalization has erased man made boundaries and it is now time for us to come closer in every sphere. We all participants would agree with this sentence. And some of us would give more opinion ...'not look at the national, regional and global but look at the people, particularly... the poor'

After finished closing day, we all free and had fun together in the last day, we all went to the shopping shop, fabindia then went to the market to buy some souvenir for loved one in our home. All enjoy shopping, the last place was the beach- Bakar beach!!

Wonderful beach that another our memorial place, we walk and talk along the beach then had lovely dinner in restaurant by the beach and had good food together and back to center nearly midnight because traffic jam along the way we back.

Oh!!! Finally, Feb 24- we all in ready to go back home even we did not want to go but it was really time and really world, met and left from each other. Some of us did teardrop when saw our friend off one by one at the airport.

We will remember the tear of love, hug of memory, kiss of friendship longer.
