

BABA 8 COMMUNIQUE

In this BABA 8 Young Leaders' Retreat, we, from different cultures and backgrounds got together to find ways to improve quality of life in Asia.

Our vision is to build a better Asian community through strong networking and effective communication.

We commit to promote the feeling of oneness towards sustainable development through social entrepreneurship and environmental conscientiousness.

We will continue our initiatives to bring an impact at grassroots level, and then spiraling upward gradually to produce a greater change.

We strive to attain our aim through value-driven leadership and we believe this will be an inspiration for current and future BABAs as well as general public to build up a better Asia.

Signed on 25th of September 2010 at Peking University, Beijing, China.
